SUBJECT;-Applying for the position of. LABORATORY TECHNICAN /MATERNITY COVER/

Firstly I would like to appreciate you/your organization for its involvement in such a burning and problem solving activity in our continent. I am writing this application to your esteemed organization in response to your vacancy post concerning your need of ***LABORATORY TECHNICAN /MATERNITY COVER.***

At very outset, I believe this for tangible reasons over the course of my career; I have proven myself to be a dependable employee for the organization that I served. I have the ability to think big, natural ability to convey information in excellent way and believing in my ability to start a new unit and kick of the program with little and I am self-motivated individual who is willing to explore new horizons.

I received my first degree in “**medical laboratory technology in 2010 from university of Jimma.**”

I have a detail experience in **hospitals, & health centers** for the last 10 years.

I have also experience at **EPHI in MARPS, bio marker quality controller in 2016 EDHS** as Medical laboratory technologist in analyses, sample collection, packaging ,storing & transporting. I took much training as mentioned in my CV.

If given the chance to be part of your organization, I will serve to the best of my knowledge with devotion for the utmost satisfaction of the aim of your organization and I am fully confident to achieve your organization’s goal with my colleagues.

I send my CV with this application letter wishing your positive response.

With best regards!!!

Frew Gebrsilassie Gibo
